Members are rightly concerned that in recent years the Executive has given into BT on pension reductions, flexible attendance patterns, pay below inflation and contractual overtime, all having a detrimental impact on working conditions and work-life-balance.

There are, however, some Executive members who are in touch with the membership, rather than management's flexibility agenda, who voted against these adverse changes.

The future will present more tough challenges for the union, as employers step-up their flexibility and performance management agenda and move to introduce further detrimental changes to our members terms and conditions. Rest assured, wherever you work in telecoms or financial services, we will be on your side.

It is important you vote for all the candidates listed - they all opposed the Openreach SDT changes and are the only ones committed to looking after your best interests at work for the next two years.

Standing up for union members in tough times

In the CWU postal executive elections, we recommend postal members vote for current Postal Executive members – **Huw DAVIES** and **Pete KEENLYSIDE**.

All the above CWU members are supporters of the Communication Workers Broad Left and want to lead a union that:

- organises its members to put their needs before employers profits
- supports public ownership of telecoms, instead of private profits
- opposes anti union laws, globalisation, off-shoring, performance management, bullying and harassment, etc. that are detrimental to union members' interests
- stands for equality and internationalism.
